WORK EXPERIENCE

Toolbox Medical Innovations

March - July 2018

Managed and verified a FDA certified companies database.

Verified accuracy of data before sending to the FDA.

EDUCATION

Le Wagon fullstack coding bootcamp

October - December 2019

Web developer

- *Successfully executed every assignment that our lead designer gave me by jumping into foreign territory and reworking APIs to fit our needs.*
- Toured and interviewed big name companies in China, including Tencent.
- Mastered the app development roadmap and what it takes to publish a project.
Gained experience coding solo, with a partner and in teams of 4.
- Built a fully functional, interactive JavaScript 3D globe without any prior animation or canvas knowledge and resourced using online articles in order to make the globe meet my teams requirements.

California State University San Marcos

- Second Year.
- My current major is computer science.

SKILLS

HTML / CSS / JavaScript
